

Preparing Ourselves for the Conversations to Come

If you are a small business owner, the COVID-19 outbreak has already made its appearance in your conversations within the workplace. Questions are being asked, and you quite honestly don't have all the answers. This is where we want to help! These tough conversations can be difficult to wrap our minds around, but we must start somewhere. This is a list of key contacts that you should make in order to get your questions answered. This list of course is different for each small business owner, so we want to encourage you to really think about adding or deleting contacts as you see fit. Again, just know that if you have any questions at all, the IEDC team is always willing to help!
